Chief, WHD
Acting-
Chief of Station, Santiago

29 December 1951

ZACACTUS, Chile.

Fulminator-1's Pro-Forma Contract

Reference: TCS-W-1465

1. Attached herewith please find a pro forma contract which has been prepared for Fulminator-1's signature. He has stated that he is in agreement with its provisions. If this contract is satisfactory please return it for his signature at such time as his clearance is obtained.

2. FULMINATER-1 has shown himself to be very enthusiastic regarding the proposed employment with this Organisation and is anxious to start the tasks to be assigned to him as soon as his clearance is obtained and the necessary instructions are forwarded to this Station.

3. To carry out the covert propaganda aspect of FULMINATER-1's duties he has highly recommended the use of Victor POBLETE Ortega. The latter is a Chilean, about 56 years of age, who is foreman of FULMINATER-1's printing shop. He also lives on the premises and would be the only person who would have to know if the presses are used at night. He is not a member of the printers' labor union and his past actions have indicated to FULMINATER-1 that he is 100% anti-Communist. He has been employed many years by MacKenzie and Co., a British firm which shared the print shop facilities with FULMINATER-1's presses. However, FULMINATER-1's equipment is entirely separate from MacKenzie's and if the covert work is done at night as is anticipated it is FULMINATER-1's opinion that POBLETE could run off the work without any possible interference from other individuals. Another of POBLETE's advantages is the fact that he is able to perform all the printing operations which will be necessary to put out normal propaganda and similar material and this would eliminate the need to use other persons in the preparation of the propaganda material.

4. POBLETE has been closely connected with English and Anglo-Chilean officials of MacKenzie & Co. for many years but it is believed logical to presume that if he is paid generously for his work in this connection, with the understanding that the work is of a completely confidential nature and of a long-term basis, that he will agree to complete secrecy regarding the work. Amount of payment to POBLETE will have to be determined when there is some indication as to the amount of work to be done. A local investigation of this person has been initiated and the results will be forwarded as soon as possible. No derogatory information on this person appears in this Station's files.

5. In line with the authorisation received in TCS-W-1465, FULMINATER-1 will be

KAPOK SECURITY INFORMATION SECRET

paid from other operational funds the peso equivalent of his salary beginning 1 January 1952. It was considered necessary to begin his payments as of that date in order to insure his continued stay in Chile. This Station would appreciate clarification of JPEDICT-Chile to which, according to TC..-W-1465, this expense could be charged for a limited time.

6. ~~5.~~ FULMINATER-1's weekly newspaper is 51% owned by him, and as indicated in attached contract, he has agreed to keep the paper for at least two years. The other owner, who has taken no active interest whatsoever in the operation, management or policies of the paper, apparently plans to sell his share. The prospective buyer is not known but in any event FULMINATER-1 will retain the controlling interest.

7. ~~6.~~ FULMINATER-1 is willing to spend the necessary time in Washington for training and will be ready to depart immediately when so advised. However, his wife is expecting a baby around 30 December 1951 according to her doctor's calculations, and FULMINATER-1 would prefer to remain in Santiago for at least a few days after the child is born. He is certain that the birth will take place within a week's time and it is hoped that his presence in Washington will not be required prior to 15 January 1952. As a cover story for his trip, FULMINATER-1 has advised that an option has been bought on one of his plays and that a trip to New York to discuss the play with the prospective producer is completely logical. Further, he has an estate in Texas which is in litigation and which could logically require his presence there. FULMINATER-1 asked that he be allowed to spend a day or two in Texas either on his trip up or back to settle this estate and it is recommended that he be allowed to do so in order to provide his cover story with more basis in fact.

8. ~~7.~~ FULMINATER-1 has been told that he must pay United States income tax on his salary received from this Organization. He is at a loss, however, to know how this added income can be satisfactorily and securely explained to the Department of Internal Revenue. In accordance with the contents of Field Regulations 50-13, this matter is being brought to Headquarters attention with a request for instructions as to how this matter is to be handled.

Acting Chief of Station
Kenneth J. Tendler

SECURITY INFORMATION

Pro Forma Contract With Fulminator-1

We hereby contract you to perform services as required under the following conditions:

1) You agree to remain in Chile for at least two years from the date of this contract and you also agree not to sell during this period your share of the South Pacific Mail of which, it is understood, you are a part owner and maintain the controlling interest. (51%)

2) It is agreed by you that this Organisation will not become involved in any way, financially or otherwise, in the South Pacific Mail.

3) You will carry out the duties assigned to you by the appropriate official to the best of your ability devoting as much time to them as is reasonably possible, taking into consideration your obligation to manage the South Pacific Mail as the overt reason for your residence in Chile.

4) You will be paid the sum of U. S. $5,940 per annum for your services to this Organization, and you agree, in accordance with subsequent instructions, to pay the United States income tax which will be due on this amount. Your salary will be paid monthly.

5) You agree to make yourself available to travel to Washington for about a one month's stay to undergo training as required. Travel and living expenses during this trip will be paid by this Organization. It is not known when this trip will take place but it is believed that it will be in the near future.

6) You will be granted paid vacations during the period of your employment in Chile in accordance with applicable Chilean laws.

7) Should local travel be required by this Organization, your travel and living expenses while away from Santiago will be made available.

8) Reasonable entertainment expenses, after prior consultation with this office, will be reimbursed.

9) It is agreed by you that you will not expect sick leave benefits to accure to you under the terms of this contract; and it is understood that your employment by this Organization will not entitle you to retirement and other similar benefits of United States Government employees.

10) It is understood by you that the terms of this contract are

SECURITY INFORMATION

Attachment: TCS-A-1801

provisional upon the satisfactory clearance of your name by the appropriate officials.

11) The effective date of this contract is the date on which your satisfactory clearance is received and the term shall be indefinite.

12) The termination of this contract may be effected at any time upon written notice, but without advance notice, by this Organization, such termination to be effective upon receipt of the notice. The termination of this contract will not release you from any provisions of security oaths which you may be required to take.

PROJECT OUTLINE

Project PBGROVEL Amendment No. ______

Type Operational

I. AUTHORIZATION

A. Establishment "in the immediate future" of mechanism capable of conducting psychological and political Warfare aimed at the accomplishment of WHD missions (a) and (b) in Chile; as set out in Section II (paragraph 2.b.) of Annex B to the WHD/OPC Strategic Plan dated 1 November 1951. This task is assigned priority one in Phase I (1 Jan - 30 June 52) in the aforementioned Plan.

II. REFERENCES

A. Budgetary data for this Project. (ANNEX A)

B. Field dispatch (TCS-A-1801) outlining the terms of this Project. (ANNEX B)

C. Headquarters cable authorizing recruitment of FULMINATOR-1 for this Project as a contract agent. (ANNEX C)

III. PROPOSAL

A. Statement

It is proposed to undertake the development in Chile of a group or committee composed of Chilean nationals which will engage overtly and actively in anti-Communist work and will function as a WHD mechanism for the accomplishment of WHD missions (a) and (b) in Chile, as set forth in Paragraph I above.

As the first step in implementing the development of that committee, it is proposed to engage the services of a high-calibre American national in Chile as a contract agent at an annual salary of $6,000.00 to

1. Spot, recruit, and manage a qualified indigenous Chilean who will act as organizer of the aforementioned committee, and

2. Act as cut-out and principal agent for WHD, in the operations of the committee.

At such time as development of the committee warrants, the necessary steps will be taken to place the committee in the proper relationship with the DTHABEAS foundation for purposes of cover and support.

B. Background

The American national in question is a former WHD/OSO agent (FULMINATOR-1) of proven ability, courage and discretion.

FULMINATOR-1's present occupation in Santiago, Chile, provides him with excellent contacts and cover for carrying out the tasks proposed for him above.

He is part owner of, and holds the controlling interest (51%) in a Santiago printing and publishing establishment that publishes an English-language newspaper, The South Pacific Mail, which FULMINATOR-1 edits. His establishment is well equipped to handle a great variety of printing jobs.

C. Current Status

On 23 January 1952, WHD Headquarters authorized its Santiago Field Station to hire FULMINATOR-1 as a contract agent for a period of at least two years (See ANNEXES B and D). In his agent capacity, FULMINATOR-1 will undertake to develop the committee referred to above in Paragraph A of this Outline.

At such time as that development warrants, an Amendment to this Project containing a statement of all new requirements, will be submitted to competent authority for approval.

IV. RECOMMENDATION

That there be allotted to this Project funds in the amount of $4,700.00 to provide salary for FULMINATOR-1 for the remainder of Fiscal Year, to cover the cost of bringing him to Washington for a period of covert training, provide his per diem allowance while here, and transport him back to Santiago, Chile following that training period.

V. OPERATIONAL DETAILS

A. Area of Operation

Chile

B. Operational Control

1. WHD Headquarters will exercise final control of this Project, and act as its support unit.

2. The WHD Field Station, Santiago, Chile, will exercise field control of Project operations in accordance with instructions from Headquarters.

C. Personnel Required

One cleared, witting agent to act as Project principal agent and cut-out (FULMINATOR-1).

D. Communications Plan

Available WHD pouch and cable facilities between Headquarters and the Santiago Field Station.

E. Support Plan

1. Training

The Project's principal agent will receive approximately one month of covert training in Washington, D. C., and return to Chile. All expenses in connection with this training are to be borne by WHD.

F. Reports Procedure

Progress reports will be submitted to WHD Headquarters by the Santiago Field Station in accordance with Headquarters directives.

G. Cover and Security

1. Cover

FULMINATOR-1 will remain in Chile in his present business position. As a cover story for his trip to Washington for covert training, FULMINATOR-1 has advised that an option has been bought on one of his plays and that a trip to New York to discuss the play with the prospective producer is completely logical.

2. Security

On 10 January 1952, WHD received an CPC Operational Clearance on FULMINATOR-1.

Communications between FULMINATOR-1 and the Santiago Field Station will at all times be carried on by means of a secure cut-out.

Since FULMINATOR-1's cover is his overt business situation in which he is already established, and since that situation provides him with printing and publishing facilities, it is believed that good operational security can be maintained with a minimum of effort in this Project.

VI. BUDGET DATA

See ANNEX A. (OPC Form No. 404).

Branch I, WHD Records   1 May 1952

MEMORANDUM FOR THE RECORD

Meeting with Agent, Paul D. LANGEVIN on 29 April 1952

1. The sense of the following text was obtained during an afternoon meeting with Agent LANGEVIN. Participating in the talk were Messrs. Smyser and Patton and Agent LANGEVIN. Four major topics were discussed and will be presented here in the order in which they were developed.

2. Printing Plant Problem: Mr. LANGEVIN indicated that in two and a half to three months certain financial obligations would come due. These consisted entirely in making an $8,000 payment arising from the purchase of equipment for his printing establishment. This equipment, which cost about $10,000 when purchased late in 1951, consists of an Italian-made press, linotype machine, Speed Graphic cameras, type, etc. The market value of this equipment (partly new and partly used) is estimated to be at least $10,000. The sum of $8,000 represents the total indebtedness of LANGEVIN's plant and is owed to a Mr. MACKENZIE of Casa Mackenzie. Mr. LANGEVIN may meet this payment by either (1) securing a loan from a Fort Worth, Texas, bank using his share in family oil interests as collateral, (2) taking on a Chilean partner, (3) getting the money from a Chilean bank (which would involve an 18% interest rate) or (4) getting the money elsewhere. Common agreement was expressed on the undesirability of taking on a Chilean partner since this would be a security hazard in any future PW work, and would also eliminate the possibility of using the plant as cover for another agent. Mr. LANGEVIN, asked about his previous statement about leaving Chile after two years, replied that now there was no definite plan or desire in that direction. He indicated he would have some idea about the possibility of assistance from a Texas bank within a few weeks. Mr. LANGEVIN also suggested that he would gladly use his earnings for the next two years from the agency ($6,000 per year) if the Agency could put up the $8,000 in a lump sum. The printing firm is now making a profit above the salary which LANGEVIN takes out.

3. Briefing on the Committee: Mr. SMYSER discussed the overall tasks which LANGEVIN is expected to perform. Much emphasis was placed on the need for security in explaining this type of PW activity, particularly if and when DTHABEAS is

SECRET

14-00000

SECRET

brought in. Mr. LANGEVIN indicated that his cover for contacting the Embassy was good, and further indicated that no unauthorized person in Chile knew of his U. S. Government activities.

4. Information on FUMBLER: When questioned about the discretion of FUMBLER, LANGEVIN indicated complete confidence, stating that she was very efficient and would be useful in assisting him in PA work. LANGEVIN was thoroughly briefed on the fact that FUMBLER must never know of DTHABEAS or its connection with the committee.

5. Words and Deeds: Mr. LANGEVIN stated that the format, paper, type and photoengraving of this pamphlet was far above Chilean standards. He said that Chile had only one printing house capable of producing such work, and no artists of the caliber exhibited in the pamphlet. He suggested a Spanish or French attribution on poorer paper. The reproduction of positives is also not done in his plant, but must be contracted for at a Santiago photoengraver's.

6. Bank Details: Mr. LANGEVIN has opened an account at the Chemical Bank and Trust, 74th Street and Madison Avenue, New York City. All future monthly payments will be made to that bank, beginning with the payment for April.

MEMORANDUM FOR: OD/CO

ATTENTION: Mr. William Rowland

SUBJECT: Project PBGROVEL, Amendment No. 1

1. Forwarded herewith are the original and two copies of subject amendment plus an extra copy of OPC Form 404a.

2. It is respectfully requested that approval of subject amendment be expedited as the Project Financial Data, Form 404a, indicates that payment of eight thousand ($8,000.00) dollars to PAUL D. LANGEVIN must be made on or about 20 June 1952.

3. Subparagraph six of the Proposal indicates that as a prerequisite to issuance of a loan to LANGEVIN the latter will be required to submit a complete nameplate inventory of all machinery and equipment involved in the loan transaction, its physical existence in his custody, his title to the property, and an approximate evaluation of its worth (as determined by WHD station personnel). WHD will be prepared to do this shortly after Amendment No. 1 is approved and the necessary funds are available for payment.

4. Subparagraph five of the Proposal indicates that details of the loan contract and selection of the appropriate legal instrument to secure a lien on the machinery and equipment will be arrived at through joint agreement of WHD, CCC and the Legal Division. These financial details will be arranged subsequent to approval of the amendment in question and will comprise the financial plan governing the expenditure of the funds requested.

MEMORANDUM FOR: ASSISTANT DIRECTOR FOR POLICY COORDINATION

SUBJECT: Project PBGROVEL, Proprietary, WHD

1. CM concurs in making a loan of U. S. $8,000 with interest at 4 percent per annum to contract agent Paul D. Langevin (pseudo). This loan is to be fully secured by a chattel mortgage, or whatever other legal instrument is recognized by the appropriate Chilean Court as establishing a first lien on the machinery and equipment, valued at approximately U. S. $10,000, against which the loan is being made. Principal and interest are to be amortized in monthly installments of U. S. $500, which represents the total salary accruing each month to the agent. The term of the loan will be for the time required to liquidate principal and interest in full.

2. The contract agent will submit a complete name-plate inventory of all machinery and equipment involved as collateral for the loan along with his proof of title to and its physical existence in his possession.

U. S. GOVERNMENT PRINTING OFFICE

STANDARD

Office Memorandum • UNITED STATES GOVERNMENT

TO : ADPC
VIA : OD/CO
FROM : C/WH

DATE: 7 July 1952

SUBJECT: Information on Paul D. LANGEVIN principal agent of Project PBGROVEL

1. Paul D. LANGEVIN is the principal agent of subject project, approved 12 February 1952. Project PBGROVEL contemplates the establishment in Santiago of an indigenous anti-communist committee which, when developed, will be placed under DTHABEAS.

2. Subject agent was granted an OSO clearance 3 October 1950, and proved his usefulness as a cut-out and in a DYCLAVIER printing operation. Subject was granted an operational clearance for DYCLAVIER work 14 January 1952, and received covert training in New York City in April. Since his return to Santiago, subject has engaged in spotting and recruiting an indigenous principal agent who will in turn organize the anti-communist committee.

3. Subject is the Texas-born 30 year old, owner and publisher of the English-language weekly "South Pacific Mail" of Santiago. Subject has also had acting and writing experience since his completion of wartime service in the U. S. Air Force. Subject has been in Chile since November 1949 and at present has a two year contract as agent for this agency, signed 25 January 1952. Subject has indicated on several occasions a continuing interest in obtaining a permanent position with this agency.

4. Due to the Subject's travel to New York for training, several officers of WHD have had an opportunity to observe and evaluate subject. Opinion on subject has been consistently favorable and he has impressed all as a person of high intelligence and personal integrity. Subject has had a varied occupational background, excellent education, and exhibits exceptional poise and a good appearance.

MEMORANDUM FOR: DEPUTY DIRECTOR (PLANS)

SUBJECT: Project PBGROVEL, Amendment No. 1

1. Amendment No. 1 to Project PBGROVEL proposes the loan of the sum of $8,000 at 4% interest per annum to a contract agent in Santiago, Chile, in order that this agent may complete payment on machinery and equipment recently installed on the premises of the printing establishment of which said agent is sole proprietor.

2. The propriety of CIA lending funds for this purpose has been reviewed by Opc/SRI who is of the opinion that in principle there should be no objection. The question of operational use by Opc has been raised with the WH Division and it has been stated that this equipment, consisting of the press, linotype machine, Speed Graphic cameras, etc., can be used for Opc propaganda production purposes.

3. The question of control of the contract agent was discussed and it has been determined that the General Counsel's Office is being requested to establish legal means whereby the lien or mortgage on this equipment will be held in the name of a cut-out. In the event of any untoward action on the part of the contract agent or disagreement between the agent and CIA, action can be taken to assume control of the machinery.

4. As is indicated in the attached memorandum from the Chief, WH Division, the contract agent is considered to be an individual of high intelligence and personal integrity. For this and the above listed reasons, it is recommended that Amendment No. 1 to PBGROVEL be approved in the amount of $8,000.

SUBJECT: Project PBGROVEL, Amendment No. 1

1. Amendment No. 1 to Project PBGROVEL proposes the loan of the sum of $8,000 at 4% interest per annum to a contract agent in Santiago, Chile, in order that this agent may complete payment on machinery and equipment recently installed on the premises of the printing establishment of which said agent is sole proprietor.

2. The propriety of CIA lending funds for this purpose has been reviewed by Opc/SRI who is of the opinion that in principle there should be no objection. The question of operational use by Opc has been raised with the WH Division and it has been stated that this equipment, consisting of the press, linotype machine, Speed Graphic cameras, etc., can be used for Opc propaganda production purposes.

3. The question of control of the contract agent was discussed and it has been determined that the General Counsel's Office is being requested to establish legal means whereby the lien or mortgage on this equipment will be held in the name of a cut-out. In the event of any untoward action on the part of the contract agent or disagreement between the agent and CIA, action can be taken to assume control of the machinery.

4. As is indicated in the attached memorandum from the Chief, WH Division, the contract agent is considered to be an individual of high intelligence and personal integrity. For this and the above listed reasons, it is recommended that Amendment No. 1 to PBGROVEL be approved in the amount of $8,000.

MEMORANDUM FOR: Secretary, Project Review Committee

SUBJECT : Project PBGROVEL, Amendment No. 1

1. This will advise you that DD/P approved the above today in the amount of $8,000.

2. This sum is actually a loan to a principal agent at 4% interest per annum, repayment to be effectuated in $500 monthly installments out of the contract agent's salary with the agency, which amounts to $6,000 per annum.

3. The agent is located in Santiago, Chile. Proper arrangements in connection with the above will be made by CCC and the General Counsel's office. This matter was cleared with the latter prior to approval.

PROJECT OUTLINE

Project FPCROVEL Amendment No. 1

Type Financial

I. AUTHORIZATION

Same as Project FPCROVEL.

II. REFERENCES

A. Same as Project FPCROVEL.

B. Budgetary data for this amendment (Annex A).

C. Memo on meeting with Agent Paul D. LANGEVIN (Annex B).

D. Cable to Santiago Station on the loan to LANGEVIN (Annex C).

III. PROPOSAL

A. Statement

1. It is proposed that the Agency lend the sum of $3,000 in U. S. currency, at 4% per annum, to contract agent, Paul D. LANGEVIN, in Santiago, Chile, in order that this agent may meet contractual obligations without endangering his present cover.

2. The proceeds of this loan would be used to complete payment on machinery and equipment recently installed in the leased premises of the printing establishment of which LANGEVIN is now sole proprietor.

3. The principal and interest of the loan would be amortized from the entire proceeds of LANGEVIN's salary from the agency of $6,000 per year, at the rate of $500 per month.

4. The loan would be guaranteed by a chattel mortgage, or whatever legal instrument is customarily employed in Chile to establish a lien on the assets against which the loan would be made.

5. Details of the loan contract and selection of an appropriate legal instrument to secure a lien on the machinery and equipment would be arrived at through joint agreement of WHD, CCC and the Legal Division. The existing agent

contract with LANGEVIN would also be reviewed jointly by representatives of these divisions with a view to incorporating any modification which might be necessary as a result of the agent's entering into a loan agreement with the agency.

6. As a prerequisite to the issuance of a loan, LANGEVIN would be required to submit a complete name-plate inventory of all machinery and equipment involved in the loan transaction and its physical existence in his custody, his title to the property, and an approximate evaulation of its worth would be determined through WHD station personnel.

B. Background

Contract agent, Paul D. LANGEVIN, is the sole owner and editor of the English-language paper, South Pacific Mail, which is published weekly in Santiago, Chile. The printing of this publication was formerly done by an outside firm. Desiring to handle both his own printing requirements and to engage in job printing, LANGEVIN obtained equipment from an individual who expected to be compensated through a partnership in the business. However, serious illness has prevented the prospective partner from entering the business, and has forced LANGEVIN to meet the financial obligation alone. The repayment of this obligation will require LANGEVIN either (1) to accept a Chilean partner in his business, or (2) to obtain a loan. The requirements of security and the need for flexibility of operation militate against bringing in a partner. Moreover, a loan obtained locally through ordinary commercial channels, i.e. banks, would entail exorbitant interest rates. In addition, since a bank loan would almost certainly be of short-term duration, there would exist the constant threat of loss of the cover business through a possible refusal to renew the loan.

LANGEVIN has contacted a bank in Texas in an attempt to secure a loan, offering as security his share of a family interest in oil-producing lands. It appears doubtful that the Texas bank will grant the loan.

C. Current Status

LANGEVIN was advised, while in the United States for training, that Headquarters would investigate the possibilities of an

Agency loan (See Annex A). After consultation with the Commercial and Legal Divisions, WHD advised LANGEVIN by cable, after his return to Chile, not to complete any loan arrangements without notifying Headquarters (See Annex B). It was decided that a loan from the Agency, under the terms outlined in the proposal, presented the best solution for the Agency from the standpoint of security, and that such a loan would give the Agency even greater control over the agent than now exists.

IV. RECOMMENDATION

It is recommended that the sum of $8,000 be made available as a loan, at 4% interest, to contract agent, Paul D. LANGEVIN, the loan to be secured by a lien on machinery and equipment valued at approximately $10,000; interest and principal to be amortized at the rate of $500 per month, the full amount of agent's salary.

V. OPERATIONAL DETAILS

Same as Project PBGROVEL.

VI. BUDGET DATA

OPC Form No. 404a
9 November 1950

Santiago
March 8, 1953

(19THART 43)

Dear Sirs:

During a recent visit to the United States, I had the opportunity of speaking with a gentleman who gave me the name of your organization as one which, in certain cases, was able to cooperate with international anti-totalitarian groups.

In Santiago, where none exists, there is a small band of people who are enthusiastically interested in launching such a group, with particular interest in the revival of "Por Chile", a weekly newsmagazine once printed here. This publication was devoted to the lower classes and editorially fought against Communism. A large group of local businessmen contributed to its success with their backing and support, a group which could be called upon again.

The director of the publication, , a distinguished journalist, is available to carry on this work again, but unfortunately does not have the necessary financial backing. Would it be too much to hope that your organization might help in this matter? A sum of about $10,000 dollars a year would be required to insure success. This amount roughly represents the yearly loss of the previous publication, plus a certain consideration for increased costs. All other basic expenses would, of course, be met from advertising and circulation revenues.

myself, and other interested friends are preparing a detailed report on the expenses mentioned above, indicating how such money would be used, and with what expected results. We would be happy to send this report to you if you indicate any possible support of our idea.

Please forgive the vagueness of this request, but as we are not sure to what extent your cooperation is possible, we await further word from you.

Sincerely yours,

(FUNEBRIAL)

April 9, 1963

Dear Sir:

This is to acknowledge with thanks receipt of your letter of March 5, 1963. The executive board of our foundation has read and considered your proposal and we find your contemplated activities most interesting. Your idea of reviving an anti-totalitarian news-magazine seems a highly desirable activity with which to initiate your group's activities. Our foundation, as you have been told, is more than willing to assist accredited groups such as yours in developing and carrying forward a genuine anti-totalitarian program.

While we are most interested in seeing your group successfully launched the Foundation's support of its activities would of course be contingent upon receipt of as complete details as possible on the personnel, resources, and aims of your group and the board's approval of the group's objectives and program.

In order that the board may arrive at definite conclusions concerning any assistance which it might be able to provide, we request that you furnish the following information:

a. Submit a report, as you suggest, setting forth your plans for revival of the magazine and include information on your resources and the amount of assistance which you would wish the Foundation to supply.

b. Inform us as to whether your group is, or could be, in a position to formulate a program of additional anti-Communist activities. We would like all possible information including an estimate of probable cost.

c. Since your group is very evidently composed of influential and high-minded people such as yourself, we believe that it might have the capability of eventually developing into an organization which could well become the focal point for anti-Communist activities throughout Chile and might be the vehicle through which aid could be channelled to other worthy civic, social, business or religious organizations which also may be aware of the Communist menace and which may wish to combat it actively. Your views concerning such a possibility would be welcomed by us.

d. In order to further the work of your group, will it be possible to obtain financial assistance locally from business, social and civic organizations? Such support is obtained in many instances, in other countries, by reputable organizations engaged in efforts similar to those which you have embarked upon.

In conclusion, may we reemphasize our great interest in your suggested publication. We shall be most happy to receive an early answer which will permit prompt consideration of possible support for this endeavor.

Very truly yours,

(DIMARKAS)

April 2?, 1953

Rec'd May 26, 1953

DTHABEAS

Dear Mr.

Thank you for your letter of April 9th, 1953. I am sure you will understand that the delay in answering has been due to my efforts to gather the information needed for a detailed response to your questions. I have had several conversations with don , the editor of the publication we wish to revive, as well as other interested parties, and y answers are based on the results of these conversations.

a. "Submit a report....setting forth plans....etc.". The plans are to revive the weekly publication "Por Chile", of 20 pages, tabloid size. It would be printed on Thursday afternoon and be dispatched by air to the North (nitrate and copper areas) and by rail to the South (coal minin and textile factories). Thus the review would be sold as workers left their factories for the week-end, insuring Saturday and Sunday reading for the family. Our objective is to reach employees and workers i order to form a mass conscience. Many industrial concerns would purchase the publication for resale to employees at a lower cost. An example: during the previous publication period the Carbonifera Lota (Lota Coal Mining Company) began with a subscription of 400 copies. That number, due to interest of the readers, was quickly increased to 1,800. The newspaper, as in the past, would be backed by the organization "Propaganda Por Chile". The sum needed to re-establish this group would be about two to two and a half million pesos. Of that amount one million pesos would be raised locally from the old society and any new sources available. That would mean ou would be called upon to support our group to the extent o one or one and a half million pesos for a minimum period of one year.

b. "Inform (possibility o)....additional anti-Communist activities ....etc.". The publishing of weekly newspaper would not be the extent of our group's activities. I quote verbatim from the ideals expressed in the legally incorporated organization in 1947:

> "The object of the society will be the exploitation of newspapers, radio and other means of propaganda destined principally at the defense of our regime of constitutional democracy and our sovereignty against the Marxist forces, Soviet communism, and any other form of totalitarianism. In its newspaper, publications and other means of propaganda the society will stir the patriotism of the citizens and show to the public conscience the tragic reality of the Soviet regime; it will fight for clean government and the betterment of the working classes on the basis of the correct application of social laws and conditions. The Society wil

utilise for its ends all legal methods of the expression of ideas and principally it will editor reviews, books, pamphlets, handbills and posters and will make all kinds of publications, radio broadcasts and projection of films. The society will also give aid to all groups or organisations with similar aims and will utilise all the means of thought necessary by the Board of Directors in order to carry out its ideals".

c. "....(the channeling)....of aid to other worthy civic, social, business or religiousorganizations....". Naturally, our group would be delighted to aid others (see above).

d. "....will it be possible to obtain financial assistance locally?" At the present time it is impossible to say definitely how much financial assistance could be obtained here. But it is interesting to note that the sum first ascribed for the incorporation of the old association was $600,000 pesos. This sum was almost doubled from spontaneous donations, etc., once the group had become a reality.

I hope the above will be sufficient for the present. We are presently awaiting a detailed estimate of printing costs for "Por Chile" and studying the problems involved—a serious shortage of paper, for instance. But I honestly feel that this organisation and its official organ "Por Chile", plus a small number of younger people who are interested in fighting Communism, would be the firm beginning of a great work in this country, which might some day spread throughout Latin America.

Sincerely and cordially,

(FUNEBRIAL)

Security Information

June 17, 1953.

(FURLBRIGA)

Dear Sir:

This is to acknowledge with thanks receipt of your informative letter of April 29, 1953 which arrived by steamer mail. We regret that an earlier reply has not been possible, but the time elapsed has been well spent in giving your latest report and your proposal of March 5, 1953, the serious consideration which they deserve. We might suggest that your future correspondence be sent to us by airmail.

The executive board of the Foundation has studied your report of April 29, 1953 and appreciated your comprehensive response to our request for further information. The objectives and contemplated activities of your group certainly seem to be highly consistent with the general aims of the Foundation and as such would merit careful consideration of financial assistance as you have indicated would be necessary.

As above indicated, your proposal of March 5, and report of April 29, have met with the sympathetic interest within the Foundation; of particular interest are the indications of strong local support in the past, as evidenced by the [illegible]00,000 peso initial incorporation subscription, plus an almost equal amount in subsequent donations for the ("P.F.C.") organization. However, we would like to know to what extent the 1947 figures, which you cited in your letter of April 29, might serve as a realistic basis for a 1953 estimate of support which might be obtained locally.

If, in the light of information at hand and any additional information which you may furnish on the personnel, resources, and needs of your group, your proposal should prove to constitute the feasible and desirable activity which it now appears to be, we will endeavor to lend our support to you in every way possible.

The Foundation will not be in a position to frame a definitive answer to your proposal until we are in receipt of, and have reviewed, your promised estimate of printing costs for ("P.C.").

Very truly yours,

(DTHABEAS)

Security Information

July 14, 1953

(DTHABEAS)

Dear Mr.

Thank you very much for your letter of June 16th, 1953, explaining that you are still considering the possibility of aid for our group.

First, I want to apologize for the error which resulted in my last letter being sent sea-mail. Of course all future correspondence will be via air-mail.

Attached find one of the 15,000 pamphlets which were recently distributed to Chile's University students in Santiago, Valparaiso and Concepcion. We think it is a graphic example of the kind of work our group can do. Funds for the project were raised by "Por Chile".

We are hoping to send you more complete details at the earliest possible moment.

(depend ?)

In spite of the local economic system we feel that we can/on such support locally for any such project of the group, and will re-affirm possible capitalization in our next letter.

There is no question that there is a great deal of work to be done here. The pamphlet, for instance, originated from the students involved and was produced with our aid.

Hoping that we may hear from you soon again. Regards, and thanks for your interest.

Very truly yours,

REFERENCES: (a) HCSA-434; (b) SAGO-848; (c) DIR 16626; (d) DIR 17648

1. This is to confirm and amplify reference (d), that Headquarters has prepared the initial letter from DTHABEAS to Martin J. COKENIAS. This letter, which requests COKENIAS to act as the "honorary" DTHABEAS representative in Chile, is being sent air-mail to the COKENIAS residence in Santiago.

2. As an attachment to this dispatch we are forwarding the draft of a suggested reply to be sent by COKENIAS to DTHABEAS, via air mail. COKENIAS need not use our suggested letter verbatim, as long as he does incorporate in his reply the ideas contained in our draft.

3. Upon receipt of the letter of acceptance from COKENIAS, DTHABEAS will send COKENIAS a letter of introduction to FUNEBRIAL. DTHABEAS will also, at the same time, alert FUNEBRIAL to the anticipated contact, asking him to put COKENIAS in touch with FUNEBRIAL-1.

4. For security reasons wer are not enclosing copies of the initial DTHABEAS letter to COKENIAS. It is suggested that station make its own file copies of the letters sent directly to COKENIAS.

5. In his contacts with FUNEBRIAL and FUNEBRIAL-1, COKENIAS will naturally not disclose a greater knowledge of the DTHABEAS-FUNEBRIAL relationship to date than would logically be available to him through his own correspondence with DTHABEAS. In order to facilitate understanding between COKENIAS and the FURIOSO-C group, however, the next letter from DTHABEAS to COKENIAS will include, in addition to the letter of introduction, copies of the FUNEBRIAL-DTHABEAS correspondence to date. Headquarters realizes that this correspondence is already available to COKENIAS, since copies were pouched with HCSW-274, but it is believed that COKENIAS will be in a firmer position vis-a-vis FUNEBRIAL if he can produce his own copies of such correspondence, direct from DTHABEAS.

Dear __________

I have received and considered your kind letter of ___ ______ and am sincerely flattered that you should be willing to place such confidence in me. I would be proud to serve as an "honorary" representative of the Foundation, and pending receipt of the necessary further details, I will be happy to accept.

You were entirely correct in assuming that I have maintained an active interest in the good work of the Foundation. In fact, my interest, rather than diminishing since I left the U. S., has greatly increased in view of my observations and experiences here in Chile. There is a great need down here for just such activities as you have mentioned in your letter, and I would welcome an opportunity such as you have presented, whereby I can contribute to the Foundation's program of assistance.

In conclusion may I say that I shall look forward to meeting and working with FUNERIAL and FUNERIAL-1 as soon as you can furnish me with the letters of introduction to these gentlemen. I agree that the task at hand is not one to be measured in terms of salary, and I shall consider the satisfaction I expect to derive from this work as ample remuneration.

Thanking you again for your expression of confidence in me, I am

Very truly yours,

C
O
P
Y

October 6, 1953

Dear FUNEBRIAL:

It is my privilege, by means of this letter, to introduce to you my good friend, Mr. COKENIAS, who has recently, and very graciously, consented to act as the Foundation's personal representative in Chile.

I have taken the liberty of asking Mr. COKENIAS to serve in this capacity primarily because the statutes of our Foundation require that we seek the services of a U.S. citizen to represent us in any foreign country in which one or more Foundation grants may be operative. In addition, however, I earnestly believe this arrangement will serve to strengthen the very promising relationship already established between us and to stimulate those activities which are of mutual interest to us. I had not mentioned this stipulation in our previous correspondence, but I do so now in view of the possible imminence of a formal agreement between Propaganda Por Chile and the Foundation. Our receipt of your promised printing cost estimates would pave the way for approval and detailed planning of an actual grant of assistance.

It is my hope and expectation that Mr. COKENIAS will call upon you in the near future to present his respects and ours. As our representative he is authorized and prepared to discuss all matters of mutual concern. Mr. COKENIAS has been instructed to extend to you, to Sr. __________ (to whom, I trust, you will introduce Mr. COKENIAS), and to your group as a whole, every possible courtesy and assistance. It is my sincere desire that this personal contact will prove to be of common benefit.

Enclosed you will find a copy of my letter of this date, to Mr. COKENIAS. At the same time, I am sending Mr. COKENIAS a copy of this letter to you, as well as copies of our previous correspondence, so that he may familiarize himself with developments to date.

Trusting that you and Sr. __________ will receive Mr. COKENIAS as our representative in the same spirit with which he has offered to serve, and hoping that this arrangement will mark the beginning of a worthwhile and enduring association, I remain,

Very cordially yours,

DTHAREAS

DTHABEAS

My apreciado senor ___________:

He tenido el placer de conocer al Senor COKENIAS. El me ha dicho que no es necesario que mis cartas sean escritas en ingles, lo que facilitara nuestra correspondencia pues mis conocimientos de la lengua inglesa son tan rudimentarios que me veia precisado cada vez, a buscar un amigo americano, de buena voluntad y confianza, que me tradujera las cartas que le he estado enviando. Achaques de salud hand contribuido a no responder oportunamente, como hubiera sido mi deseo, sus cartas.

Ya estamos en contacto con el Senor _____________ y esperamos llegar muy luego a un entendimi ento para proseguir con nuestro proyecto de reeditar el periodico, "Por Chile".

El senor COKENIAS le enviara muy pronto un resumen de lo que estamos acordando.

Se despide muy afectuosamente, S.S.

FUNEBRIAL

(Above letter by FUNEBRIAL acknowledges that he has been introduced to COKENIAS and that the latter will send to DTHABEAS shortly a resume of the PPC plans.)

PROJECT OUTLINE

Project: FURIOSO-C (PBGROVEL) Amendment No.2.

Type: Operational

I. AUTHORIZATION

A. Basic Program Authorization

1. Basic project PBGROVEL was approved on 12 February 1952 for the establishment of a mechanism capable of conducting KUGOWN activities aimed at the accomplishment of WHD missions (a) and (b) in Chile; as set out in Section II (paragraph 2 b) of Annex B to the WHD/KUGOWN Strategic Plan dated 1 November 1951. This task was assigned priority one in Phase I (1 Jan. - 30 June 1952) in the aforementioned plan. Funds in the amount of $4,700.00 were allotted to this Project, to provide salary for contract agent Paul D. LANGEVIN (FULMINATOR-1) for the remainder of FY 52, to cover the cost of bringing him to PBPRIME for a period of covert training, provide his per diem allowance while here, and to transport him back to Santiago, Chile, following completion of training.

2. Amendment No.1 to basic project PBGROVEL was approved on 14 July 1952 for the amount of $8,000 (later reduced to $6,000) to be made available as a loan, at 4% interest, to contract agent Paul D. LANGEVIN; the loan to be secured by a lien on machinery and equipment valued at approximately $10,000; interest and principal to be amortized at the rate of $500 per month, the full amount of the agent's salary. Authorization for PBGROVEL Amendment No.1 was the same as that for the basic project PBGROVEL.

3. The 1954 WH Operational Program, approved by Chief, KUBARK on 10 August 1953, authorized a maximum expenditure of $10,000 for this project during FY 1954.

III. THE PROPOSAL

A. Statement of the Proposal

1. In basic project PBGROVEL, it was proposed to undertake the development in Chile of a group or committee composed of Chilean nationals which would engage overtly and actively in anti-BGGYPSY efforts and would function as a WHD mechanism for the accomplishment of WHD missions (a) and (b) aforementioned. As the first step in implementing the development of the committee, it was proposed to engage the services of a PBPRIME national in Chile as a contract agent whose task was to select, and exercise subtle guidance over a qualified Chilean, the latter to act as the organizer of the committee. It was further stated that at such time as development of the committee warrants, the necessary steps would be taken to place the committee in the proper relationship with the DTHABEAS foundation for purposes of cover and support. The provisions of the foregoing are now revised in accordance with the proposal of this amendment as set out below. The overall objective of the basic project remains unaltered.

2. It is proposed, in this Amendment No.2 to Basic Project PBGROVEL, that WHD furnish technical and financial support, not to exceed $10,000 during Fiscal Year 1954, to an indigenous group of Chileans for the purpose of aiding the group in its overt anti-BGGYPSY and anti-BIGHT KUGOWN-type activities. WHD support will be specifically designed to assist in the re-activation of the group along its original lines and to foster by support periodically advanced, the revival of the group's official organ, a weekly news magazine. It is anticipated that the indigenous group will eventually also serve as a mechanism for the channeling of WHD support to other worthy groups with similar aims. (See Annex C).

B. Background

1. In 1947, a group of influential Chilean business and intellectual leaders formed a legally chartered organization dedicated to an overt and active anti-BGGYPSY and anti-BIGHT program through use of all types of KUGOWN media. The group published an anti-BGGYPSY weekly news magazine designed for the working class audience. The activities of this group, including publication of its official organ, were later suspended as a result of financial difficulties, public solicitation and subscriptions being, at the time, the only source of funds.

2. Through the encouragement and subtle direction by

Mission Santiago, working through contract agent Paul D. LANGEVIN, FUNEBRIAL, an unwitting Chilean with excellent contacts in business and intellectual circles, has succeeded in re-activating the former organization, and has recently approached DTHABEAS with a request for support for the group's activities.

C. Current Status

1. The provisions of basic project PBGROVEL and of Amendment No.1 have been fulfilled. Contract agent Paul D. LANGEVIN has accomplished his mission, that of selecting and subtly guiding a Chilean citizen as the indigenous organizer of the committee. The loan to LANGEVIN, provided under the terms of Amendment No.1, has been paid in full, and the services of the contract agent, for this project, were terminated as of 31 August 1953.

2. The present committee, composed of influential Chilean citizens, has been in touch with the DTHABEAS foundation since March, 1953. The initial contact and subsequent correspondence with DTHABEAS have been handled by FUNEBRIAL, who, while not a member of the original (1947) group, is an outstanding caricaturist and satirist with abundant experience in journalism and publishing, and who has taken the initiative in re-forming the once-active committee.

3. DTHABEAS is currently awaiting receipt, from FUNEBRIAL, of a detailed estimate of financial support needed, to include printing costs of the group's weekly news magazine. The publication itself will be published and edited by FUNEBRIAL-1, a dynamic anti-BGGYPSY individual who also published the official organ of the 1947 organization. Upon receipt of the abovementioned estimates, and pending their review and approval by WHD, DTHABEAS should be prepared to extend technical and financial support up to the amount of $10,000 per annum. It is understood that such WHD support, channeled through DTHABEAS will supplement at least an equal amount which is to be raised locally by the FUNEBRIAL committee.

4. Contract agent Paul D. LANGEVIN has been replaced, as the cut-out and principal agent for WHD, by Staff Agent Martin J. COKENIAS. The latter is presently being introduced into the operation as the Chilean representative of the DTHABEAS foundation; this is being done by means of correspondence between DTHABEAS, FUNEBRIAL, and Martin J. COKENIAS. Once WHD support to the FUNEBRIAL group is actually extended by DTHABEAS, COKENIAS, through the exercise of subtle guidance made possible by his capacity as a DTHABEAS representative,

will exert at least indirect control over the activities of the group.

D. Advantages to be derived by KUGOWN

1. By supporting the activities of the FUNEBRIAL organization, WHD will obtain the services of a secure mechanism unwitting of ODYOKE interest, capable of conducting extensive KUGOWN activities on an overt and indigenous basis.

2. In addition to execution of its own KUGOWN type program, the FUNEBRIAL group will serve as the focal point for funding and direction of other KUGOWN activities carried on by other indigenous groups having similar aims. By extension of support to other such groups, the FUNEBRIAL organization could thus become the nucleus of a secure KUGOWN network, requiring no direct contact by WHD/KUGOWN personnel under ODACID cover.

3. Since this operation would be funded by WHD headquarters, through the WHD mechanism DTHABEAS, and since control will be exercised by DTHABEAS through its Staff Agent representative in Chile, Mission Santiago will be relieved of all but a monitoring and reporting responsibility. This is in accordance with the WHD plan of removing direct control of, and attribution for, KUGOWN operations from the official station.

E. Risks Involved

Risks involved in establishing the KUGOWN channels envisaged in this project should be minimal. The indigenous individuals concerned have been recruited on an unwitting basis and will be handled by Martin J. COKENIAS directly. The FUNEBRIAL group, as an existing legal entity, has good natural cover and can accept direct attribution for its KUGOWN activities. No Station personnel will be involved and the possibility of ODYOKE interest being disclosed will be further minimized by securely funding the group and backstopping both Martin J. COKENIAS and the group's activities by DTHABEAS. FUNEBRIAL will be unwitting of the original source of his funds and of ODYOKE interest.

IV. THE RECOMMENDATION

That the funds currently approved for this project under the WHD Operational Plan for FY 1954 in the amount of $10,000 be authorized for the implementation of the proposal outlined in this amendment. This support is not to exceed $8,000 during the remainder of FY 1954. Funds used in furthering the revised plans for this project will be provided periodically to the DTHAREAS funding mechanism after receipt of statements from FUNEBRIAL as to the proposed use of the monies.

V. OPERATIONAL OUTLINE

A. Area of Operation

1. Geographic area

a) Chile

2. Specific target groups

a) Business and intellectual circles

b) Working class reader audience

B. Operational Control

1. Control exercised by Headquarters

WHD/KUGOWN will exercise operational control through DTHABEAS which will disburse funds to the FUNEBRIAL group in accordance with specific WHD instructions. Control will be effected through the allotment of funds on the basis of budgeted need, through DTHABEAS, to the FUNEBRIAL group upon evidence of satisfactory performance of the missions assigned to this organization.

2. Control exercised by the Field

Chief of Mission, Santiago, will exercise indirect control through Staff Agent Martin J. COKENIAS. By means of independent checking and reporting procedures, Mission Santiago will keep headquarters informed of the FUNEBRIAL group's activities. Should the group fail to provide satisfactory performance, Mission Santiago will advise headquarters to withdraw financial and technical assistance.

C. Duration of the Project

It is anticipated that this project, if approved for FY 1954, will be continued in the future by means of a re-allotment of funds obtained through the yearly Operational Programs.

D. Possibility of Overlapping Jurisdiction

It is anticipated that FUNEBRIAL may eventually be used to channel support to other groups in Chile, either existing

or contemplated, which groups may fall within the province of other WHD/KUCOWN projects in Chile.

E. Personnel Required

1. FUNERIAL and FUNERIAL-1, both unwitting Chilean officials of the FUNERIAL organization, are immediately available as Principal Agent and sub-agent, respectively.

2. Martin J. COKENIAS, a WHD Staff Agent, will be the field Case Officer for this Project.

F. Communication Plan

1. The present direct correspondence between DTHABEAS and FUNERIAL will be supplemented by correspondence between DTHABEAS and Martin J. COKENIAS.

2. Existing facilities will suffice for communications between Headquarters and Mission Santiago and between Mission and Martin J. COKENIAS.

G. Support Plan

1. Support to be furnished by Headquarters

Support furnished by headquarters will consist primarily of operational, propaganda, and technical advice, as well as the provision of funds.

2. Support to be furnished in the Field

Mission Santiago will observe covertly the activities of FUNERIAL's group to assess the effectiveness of such of their activities as are related to this project.

3. Funding

a. At the present time the specific financial requirements of the FUNERIAL committee cannot be given, nor can any firm schedule of disbursements to the committee be set forth in this amendment since these requirements will be met on a day-to-day and month-to-month basis depending on the needs of the committee.

b. Disbursements from funds authorized under this amendment will be controlled as follows. Periodically, every few months, the FUNERIAL committee will submit a budget to DTHABEAS for the funds it requires for the succeeding quarter.

Upon approval of this budget by Headquarters, the funds will be placed to the account of Staff Agent Martin J. COKEHIAS, who will be accountable for their disbursement in accordance with Confidential Funds regulations. COKEHIAS will disburse such funds in the smallest amounts possible, consistent with maintaining the operating efficiency of the project. He shall not, moreover, make additional disbursements until he has received tangible evidence of expenditure (receipts) for previous disbursements. Ordinary disbursements should not exceed $1,000.00 and should be covered by receipts within thirty days. Where the Staff Agent is certain that receipts cannot be obtained for large disbursements and where the expenditures cannot be authenticated with certainty by the Staff Agent, an amendment to the project should be prepared and a proposed administrative plan should be forwarded to Headquarters for approval. Staff Agent Martin J. COKEHIAS shall take all reasonable precautions to insure that he maintains complete control of the financial phases of this operation at all times and that all disbursements adhere to the Confidential Funds Regulations and the objectives authorized in this project and its amendments.

H. Reports Procedures

In granting financial aid to FUNEBRIAL's group, DTHABEAS will request periodic reports of activities and expenditures. These reports will be covertly checked by Mission Santiago.

I. Coordination

No coordination will be required beyond WHD.

J. Cover

As a completely overt and legitimate local organization, with an avowed anti-DGGYPSY program, the FUNEBRIAL group has natural cover. WHD support will be covered by channeling funds through the secure DTHABEAS mechanism. Martin J. COKEHIAS is a Staff Agent under unofficial cover in addition to which his relationship with the FUNEBRIAL group will be carried out in his capacity as the local representative of DTHABEAS.

K. Security

All indigenous personnel involved in this project are unwitting of ODYOKE interest. Funding, control, and guidance of the FUNEBRIAL group will be handled in such a way that ODYOKE interest will not be disclosed to indigenous or unauthorized persons. Attribution for the group's activities can and will be accepted by the group. The original source of funds will not be known by the group.
